

OUR COMPANY

Mera is a team of engineers, scientists and economists dedicated to the production and processing of vegetable protein for human consumption. The company has focused on developing processing technologies over the last 10 years, specifically on implementation of hydrodynamic cavitation. The company has focused on work with its partners in Latin America and Asia for development of commercial products and ingredients.

OUR CULTURE

Mera is recruiting a highly motivated Food Lab Technician for its Saskatoon processing facility. This position is responsible for managing day-to-day operations including safety, production, inspections, sanitation and control of machinery to manufacture. The position is also responsible for compliance with government regulations and food safety. Experience in a manufacturing plant preferably within the Food & Beverage industry is an asset. You must be able to work with minimum supervision, and as part of a multi-disciplined team. Strong communication and interpersonal skills are essential.

ROLE DESCRIPTION

This is a permanent full-time position based in Saskatoon, Saskatchewan. The successful candidate will be working with the Mera team based in Regina and Saskatoon. Travel may be required within the province and annual corporate sponsored training will be provided which may be outside the province.

REQUIREMENTS

- Post-secondary education in one of the following disciplines: food science, business, engineering, or operations management is an asset.
- One to two years of previous experience in the Food Manufacturing industry is preferred.
- Proficiency with Microsoft applications.

Mera offers a competitive salary and complete benefit package.
